Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to the amendment received on 09/08/2006.

Claims 1-18 are still pending.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-4, 9-18 are rejected under 35 U.S.C. 102(e) as being unpatentable by Provost et al. (hereinafter Provost) (U.S. Patent No.6,341,265).

A. Claims 1-4, 9-18 have not been amended, they are rejected for the same reasons set forth in the previous Office Action (pages 2-8). Applicant's arguments with respect to the aforementioned rejection are addressed below in the section entitled "Response to Argument".

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 5-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Provost et al. (hereinafter Provost) (U.S. Patent No. 6,341,265) in view of Doyle et al. (hereinafter Doyle) (U.S. Patent No. 4,916,611).

A. Claims 5-8 have not been amended, they are rejected for the same reasons set forth in the previous Office Action (pages 9-13). Applicant's arguments with respect to the aforementioned rejection are addressed below in the section entitled "Response to Argument".

Response to Arguments

6. Applicant's arguments filed on 09/08/2006 have been fully considered but they are not persuasive. Applicant's arguments will be addressed below in the order in which they appear.

A. In response to Applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "emulating the insurer's adjudication process") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

B. In response to Applicant's argument about Provost does not teach "issuing a preliminary EOB (explanation of benefits)", Examiner respectfully submits that on col. 3, lines 52-55 and lines 58-63, Provost teaches the remote server informs the client computer of the patient eligibility status, which can include any amount of detail. Examiner interprets that the patient eligibility status, which explains the

types of diagnoses and treatments for which payment will be made on behalf of the patient is a preliminary EOB.

C. In response to Applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "processing insurer data that is reflected in the insurer's EOB") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

D. In response to Applicant's argument about Provost does not teach "submitting a pre-adjudicated claim to a designated payer in accordance with the patient benefit plan", Examiner respectfully submits that Provost teaches client computer receives patient's eligibility status data, which includes data such as the types of diagnoses that payment will be made (col. 3, lines 58-63). Then the technician fill out the claim form (pre-adjudication claim), entering diagnosis codes and submits it (col. 3, line 66 to col. 4, line 3). Provost continues on col. 4, lines 22-38 that the provider amend the claim according to the benefit plan.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dilek B. Cobanoglu whose telephone number is 571-272-8295. The examiner can normally be reached on 8-4:30.
